Award Description*

WAS Number: KA/CH14/9/ARRA-2 NOvA MIE - Accelerate the completion of the NOvA Major Item of Equipment by accelerating building construction and detector fabrication by 9-12 months. The NOvA detector will study the oscillations of muon neutrinos over long distances to search for the oscillation into electron neutrinos, determine the hierarchy of neutrino masses and measure CP violation in the neutrino sector if it is large enough. The bulk of the funding to Fermi National Accelerator Laboratory for detector fabrication, planned for FY 2013, will be provided in FY 2009, so that detector fabrication can be advanced to match the earlier completion of the building and allow for completion of the entire project 9-12 months early. The NOvA project is a next major element in the Nation's program at the Intensity Frontier, which is one of the three major thrusts in the HEP strategic plan. NOvA will begin running approximately one year earlier.

Project Information

Project Status*	Total Federal Amount ARRA Funds Received/Invoiced*	Number of Jobs*
Less than 50% completed	\$620,572.18	0.00
Description of Jobs Created*		

There are no Primary activities performed by the Prime recipient.

There are no Primary activities performed by Sub-contractors, all purchases have been Materials.

Number of characters entered: 165

Quarterly Activities/Project Description*

The NOvA Project completed 6 milestones during this quarter:

- 1) Received first 15% of wavershifting powders for NOvA liquid scintillator in September 2009.
- 2) Placed Purchase Orders for magnet and instrumentation cables in July 2009.
- 3) All magnet and instrumentation cables were received in August 2009.
- 4) Placed Purchase Orders for Beam Position Monitor cables and electronics in August 2009. Beam Positon Monitor electronics were received in September 2009 (partial milestone).
- 5) Placed Purchase Orders for damper amplifiers in August 2009.
- 6) All damper amplifiers were received in September 2009.
